Art Unit: 1625

Claim 22 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 22 recites the limitation "any one of formula A1-A590 shown herein above". There is insufficient antecedent basis for this limitation in the claim.

The formula A1-A590 is not present in the claims from which claim 22 depends.

Claims 48 and 49 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for pyridyl derivative methods of use, does not reasonably provide enablement for the vast range of compounds encompassed by claims 1 and 2. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to use the invention commensurate in scope with these claims. The compounds are structurally unrelated and would not be expected to have the same utility.

Claims 1-52 are again rejected under 35 USC 112 first paragraph for the reasons of record. Applicants' comments are noted, however, the structurally unrelated nature of the compounds, e.g. pyridine vs crown ether, is such that a reference anticipating one would

not render the others analogously obvious by one of ordinary skill in the art, for the same use.

No claim is allowed.
